Brainstorm

## Meetings made wonderfully easy

### Inspire involvement and idea-sharing

Meet and co-create with video conferencing, plus touchscreen whiteboard technology that promotes hands-on collaboration.

### Compatible across conferencing platforms

Vibe Board seamlessly integrates with your favorite conferencing apps, allowing you to enhance collaborations like never before.

### One-click video conferencing

Sync your calendar with the Vibe Board and join virtual meetings with just one click.

### Make sure everyone is seen and heard

Capture the entire scene using a super-wide FOV smart camera equipped with AI capabilities, such as auto-framing and noise cancellation.

## Improve collaboration with your remote teams

### Brush mode

Use watercolor pencils, crayons, and markers to build your work and highlight your notes with ease.

### Infinite canvas

Unleash your creativity on an infinite canvas. Build vertical and horizontal scroll infinite canvases based on your needs.

### Templates

Start your work faster with pre-built templates. Save you time and effort by providing a solid foundation for your projects.

### Cloud-based

Automatically save all discussions to the cloud in real-time, no need to worry about losing any ideas anymore.

### Multi-device support

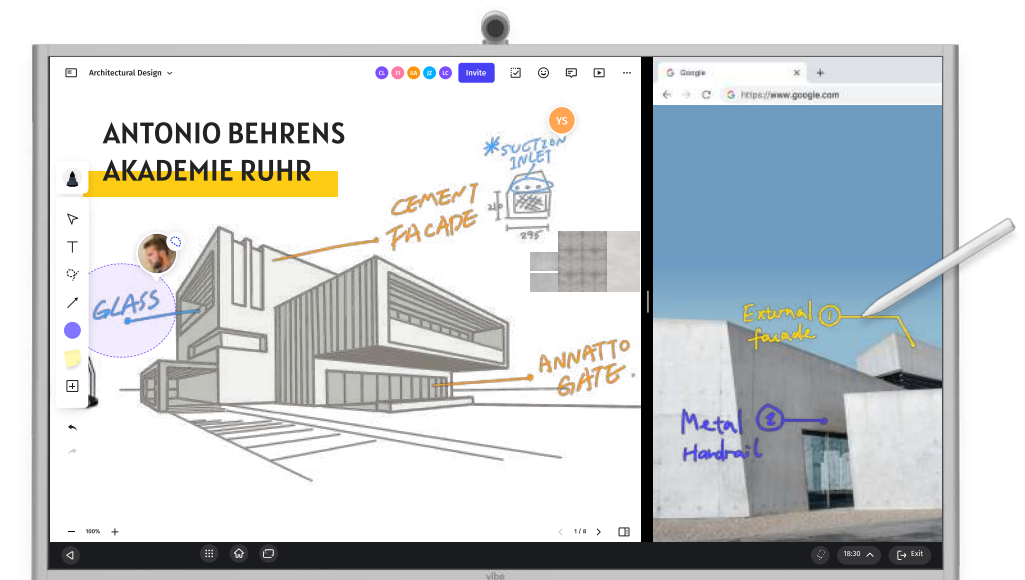

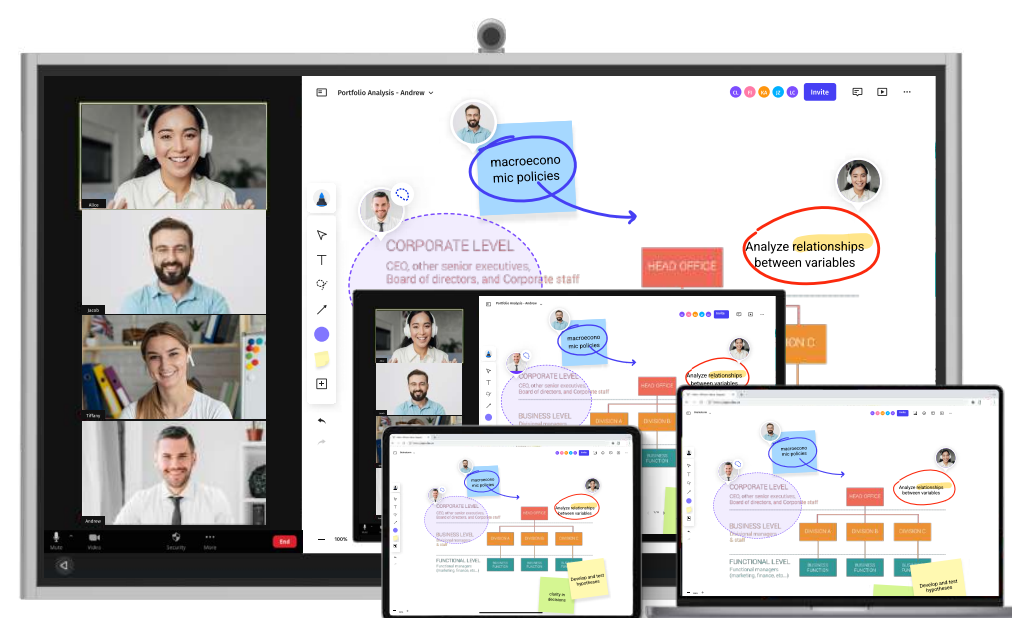

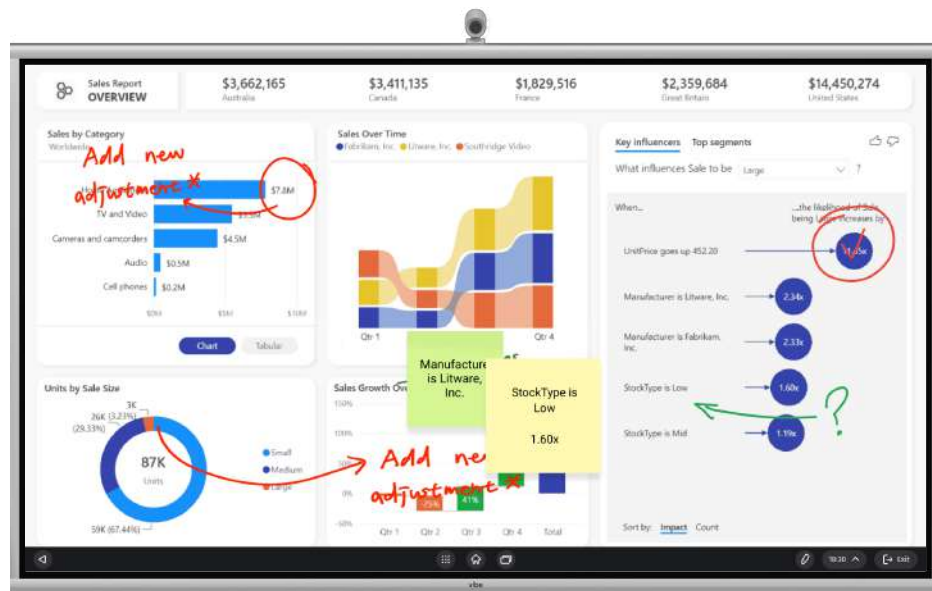

Collaborate on the same canvas from a Vibe Board, computer, iPad, or phone in real time from anywhere.

### Comment

Use comments, stickers, and emotions to add feedback and ideas to help drive discussions.

## Wow your audience with stunning presentations

## Deliver impactful presentations

Choose the apps that best convey your message, whether you're presenting a sales report with PowerBI, a Marketing campaign with PowerPoint, or UX design with Figma.

## Effortless screen casting

Cast any files from your devices—computer, tablet, or smartphone—to the Vibe Board with HDMI-in, USB-C ports, or wireless screen casting.

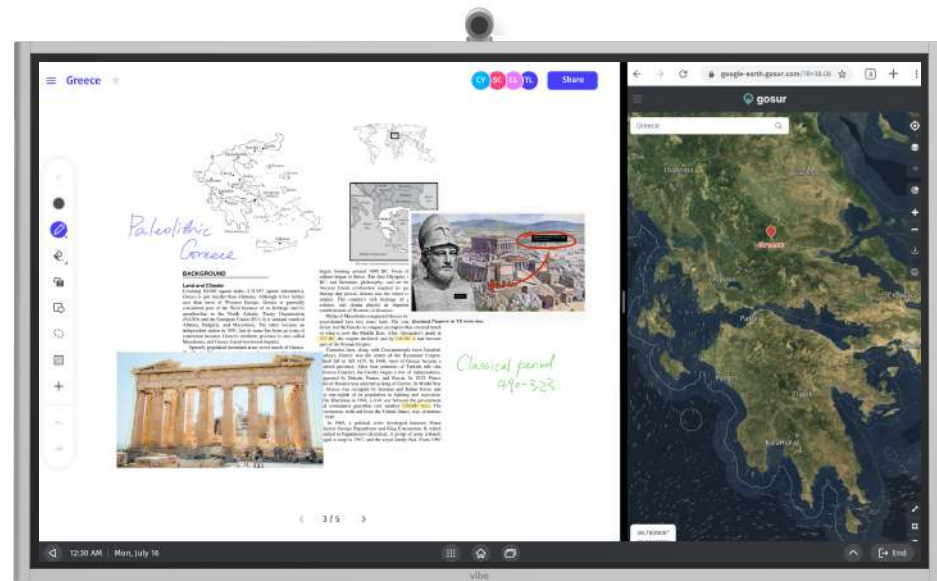

## Annotate any layer

Annotate images, PDFs, or videos while presenting, making it easy to emphasize important points and bring clarity to your big ideas.

# Key Features

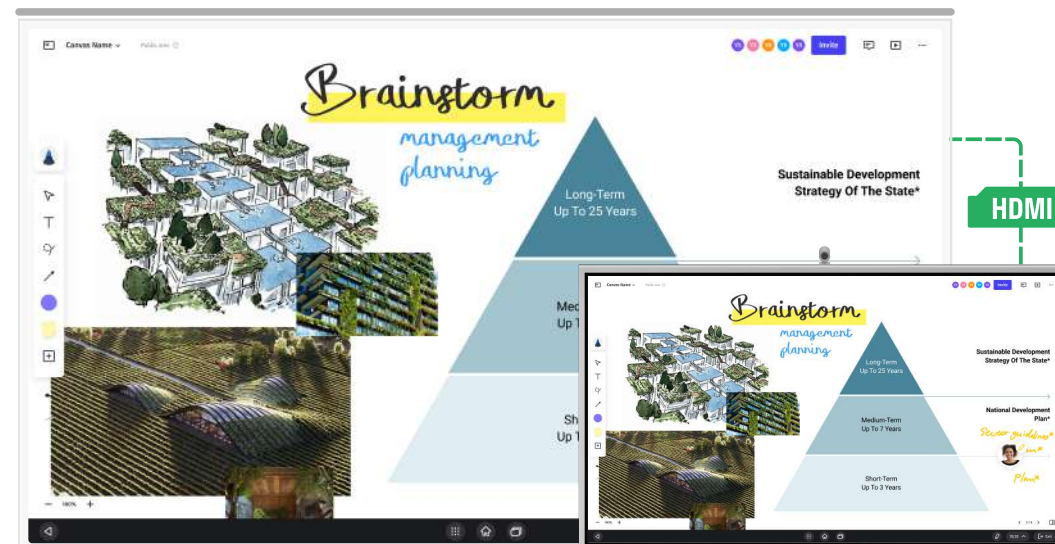

Meet / Collaborate / Present

## Wow your audience with stunning presentations

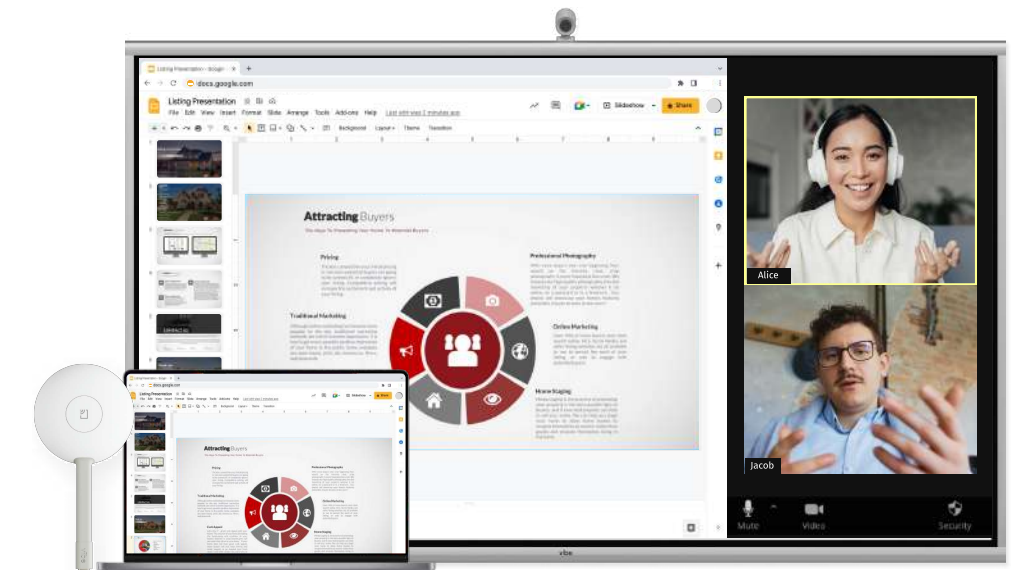

### Split-screen view

Run two apps side by side for seamless multitasking. Draw references from Chrome, YouTube, or other apps while you work.

### Multi-screen functionality

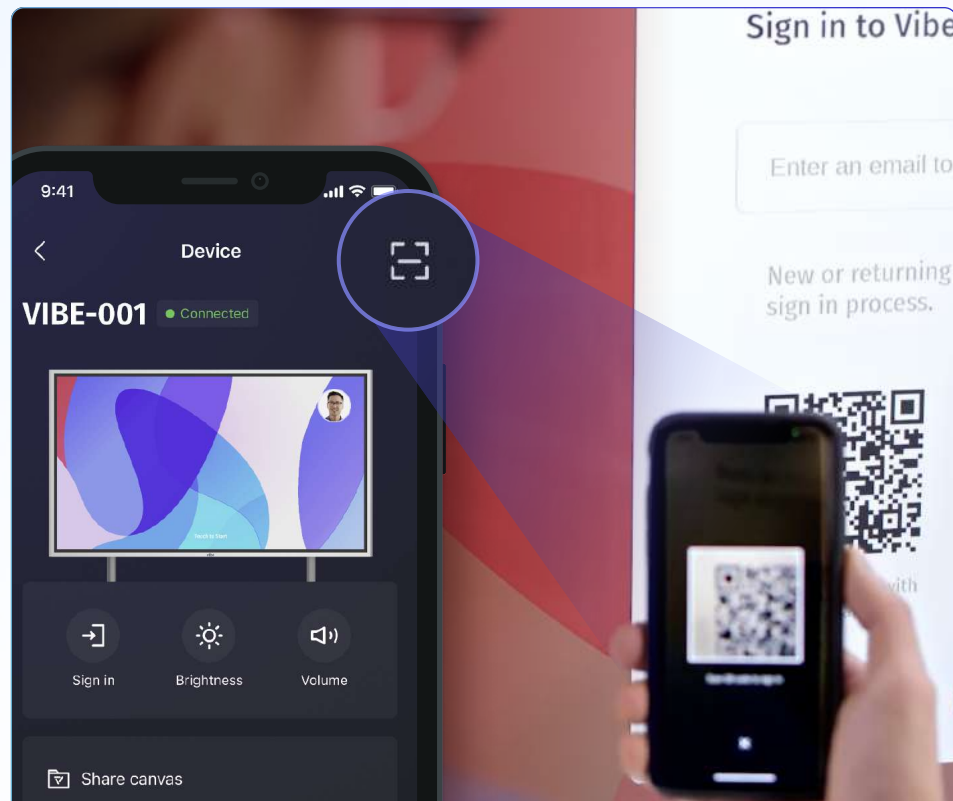

Control your laptop and board simultaneously with touchback control, and project content from the Vibe Board to other displays when presenting to larger audiences.

### 4K wireless screen share

With our display adapter Vibe Tap, designed for Vibe Board, you can start a presentation in seconds, and enjoy wireless connectivity with 4K resolution support, even in areas without Wi-Fi.

## The Companion Service For Vibe Board

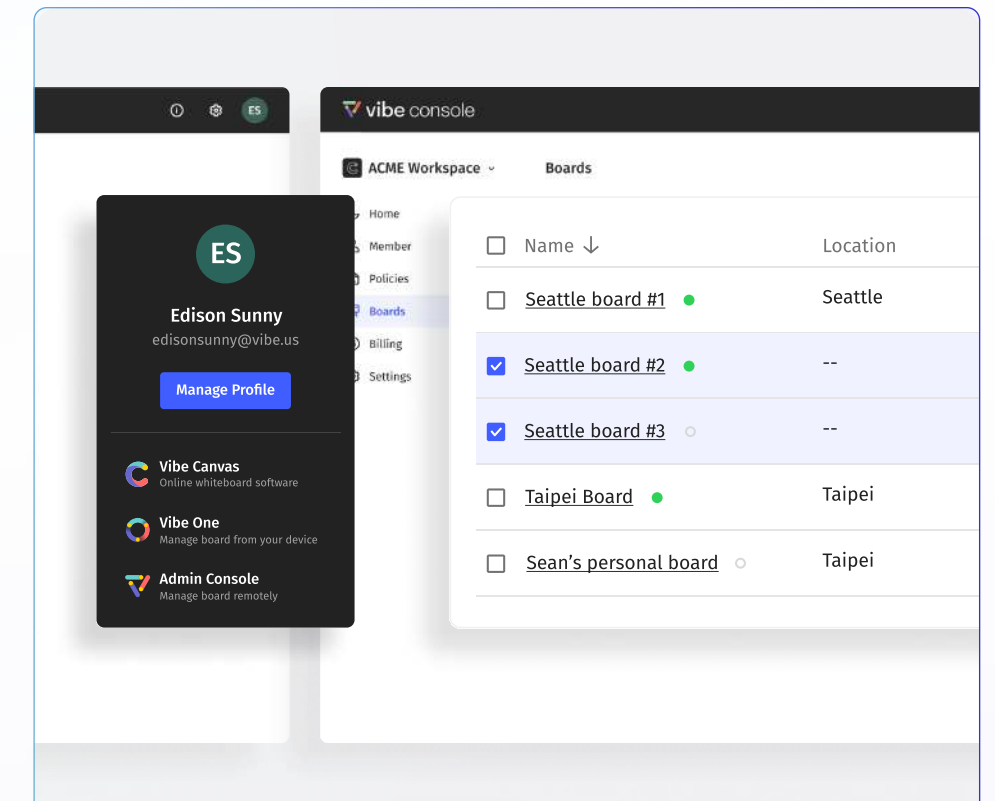

### Simplify Work on Vibe Board

To enhance your workflow, enjoy quick sign-in, instant meeting access, one-drop file transfer, and scan to save canvas, effortlessly with Vibe One.

### Remote Control Made Easy

Take full control even from a distance. Seamlessly adjust board settings, slide through presentations, and interact with the board, without leaving your seat.

### Easy Fleet Management

Configure devices, manage users, and apply policies to all boards with Vibe Admin Console, and tailor the setup process to suit any team.

# Enterprise-Grade Data Protection

## Trusted computing with TPM 2.0

With Trusted Platform Module (TPM), the Vibe Board\* makes sure to encrypt user profiles and certificates, facilitate disk encryption, the list goes on.

\*Compatible devices required.

## Single sign-on authentication

Vibe ensures that only the right people and approved devices can access user's or team's content.

## Dedicated user accounts

When working in a shared workspace, you can sign in to your dedicated account to stop unauthorized access to your apps or sensitive information.

## Fleet management

Configure and manage your devices and users remotely from any web browser, IT admins can tailor the setup process to any team.

## Over-the-Air updates

Vibe provides automatic security updates every 2-4 weeks to ensure you're working on the latest and most secure versions of Vibe and Chromium OS.

## SOC 2

Assurance to customers that Vibe has appropriate security measures and controls in place to protect data and ensure the overall integrity of services.

# Trusted by 33,000+ Forward-Looking Business Leaders and Educators

**“It’s an active learning process that gets students engaged and gets them actively thinking, not just passively listening to material.”**
