

# Vibe Board 55"

Empower your teams to collaborate, innovate, and ideate like never before with Vibe.

# Vibe is a collaboration solution that combines an interactive digital whiteboard and smart software.

Activate your brainstorming sessions, client presentations, and virtual trainings by combining video conferencing and your favorite applications with an infinite writing canvas.

## Collaborate

### Bring teams closer

Connect remote employees like never before by providing them with technology that's on par with an in-office experience.

## Create

### Get into the groove

Create without limits. Fluidly sketch, design, and conceptualize on an infinite canvas. Visualize what works, save ideas for other projects, and erase whatever no longer fits with the flow.

## Engage

### Activate your meetings

Think beyond one-way presenting. Ensure that you're connecting with your audience with interactive sessions. Take notes or mark up images with the real-time whiteboard.

## Create great ideas with your team

### Infinite Canvas

Unleash your creativity on an unlimited, partitioned canvas

### Multiple Pen Choices

Initiate your drawing with different colors and pen thicknesses

### Smart Drawing

Keep things neat with smart drawing for AI text and smart objects

### Customized Canvas

Adjust canvas colors or add a grid, dot, or square pattern

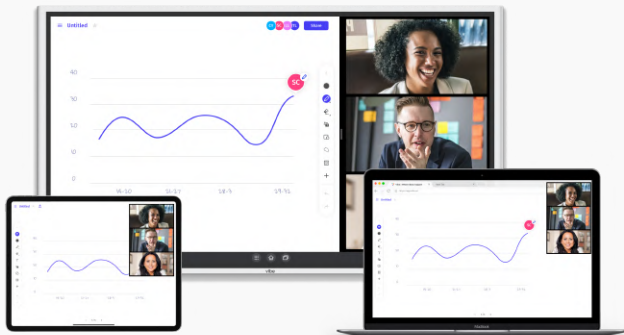

### Templates

Start your work faster with pre-built templates

### Sticky Notes

Use sticky notes to conduct a brainstorming session with your team

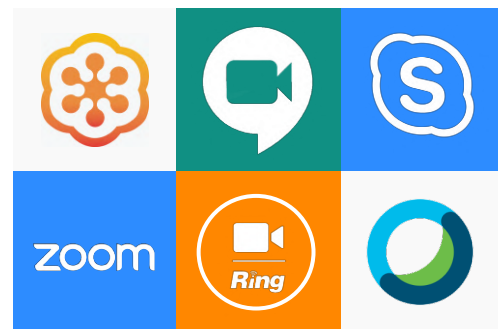

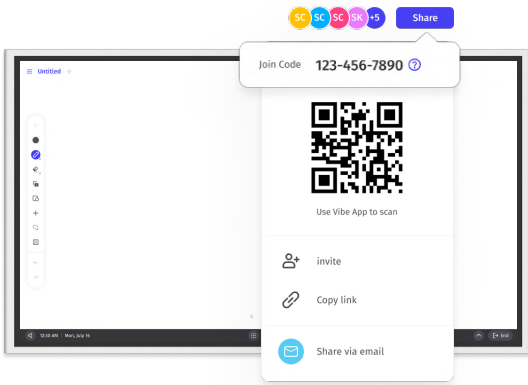

## Edit in real-time on your choice of device

Don't limit yourself to a single screen. Access and edit your canvas through the Vibe Board, through your Mac or PC, or on your tablet. Seamlessly collaborate in real time on whichever devices work best for your team.

## Connect your team with video conferencing

Vibe makes it super easy to join a video conference using Video Conferencing apps like Zoom, Google Meet, Teams, RingCentral, and more. Vibe boards are compatible with most USB webcams and have two available USB ports.

## Share projects with cloud collaboration tools

You can simply share this board by scanning QR code, or via email, Slack and Teams. The board can be shared as either a live link that takes you to the board or as a static PDF saved back to DropBox, Google Drive, OneDrive or Box.

## Wireless screencast enhanced with touch

Fluidly bring content to Vibe by wirelessly casting your screen to Vibe or by connecting in via HDMI. With your screen cast, you can add notes, comment, and draw attention as needed.

device's manufacturer.

### As simple to use as a traditional whiteboard

Users should be able to simply grab a pen and start sketching on the board. Your whiteboard should serve as the **organizational locus** for a **brainstorming session** or the place where the abstract threads and visions swirling in your imagination take shape and come to life.

### Seamlessly integrate with your existing workflows

Make sure it can seamlessly integrate with your favorite apps, like Slack, Teams, Office, Zoom, Dropbox, Blue Beam, WebEx, etc. so that it fits perfectly within your existing workflows.

### Consider size & compatibility for cameras/microphone

Take measurements of the room it will be in to see what size of screen would work best. If you plan to use it frequently for video conferencing, be sure to check if the whiteboard has a camera and microphone built-in or if you can easily connect your existing conferencing camera.

### Choose one with features that fit your needs

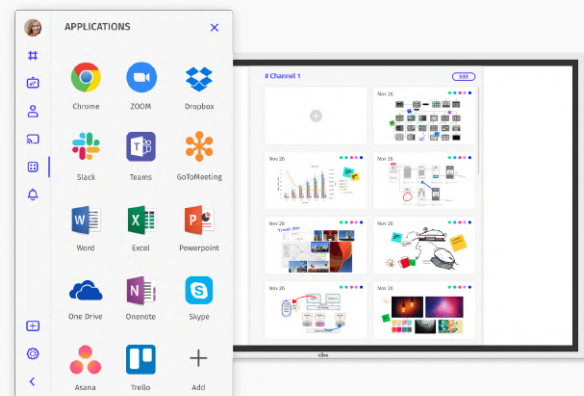

It's **important to choose one with features** fit your own needs. Take a poll from your team on what features are most important to them on a new device. Features could include wireless screencasting, infinite canvas, 3rd party app

## Leave your mark, again and again

Annotate the canvas with sketches, comments, and digital sticky notes to add context to **PDFs, documents, screenshots, and images**. Modify, erase or move your additions with a swipe of the stylus.

## We've brought along your favorite apps

Vibe works with the tools you've already invested in, so there's no need to make additional purchases. In addition, there's no learning curve or barrier to adoption of the apps that you are using.

## Panel

Diagonal Screen Size	55"
Optimum Resolution	3840(H) X 2160 (V) @ 60HZ
Brightness	300 cd/m <sup>2</sup>
Contrast Ratio(Typical)	1200 : 1
Response Time(Typical)	8ms
Pixel Pitch	0.315 mm x 0.315mm
Anti-Glare Coating	Yes
Aspect Ratio	16 : 9
Color Depth	16.7M
Viewing Angle	178(H) / 178(V)
Analog	Normal 72% NTSC

## Connections

HDMI	IN & OUT
USB	2.0, 3.0, Touch, OTG
Network	2.4G/5G Wifi, Ethernet
Bluetooth*	Version 4.1
Audio	Audio Out

\*Bluetooth microphones are not supported at this time

## Touch

Multi-Touch Technology	Infrared Touch
Touch Points	10 Simultaneous Touch Points
Protection Glass	3 mm Tempered Glass
Touch Refresh Rate	150 Hz
Minimum Touch Object	2mm
Response Time	< 7 ms

## System

System on Chip	Rockchip 3399
CPU	Dual-core Cortex-A72 up to 1.8GHz Quad-core Cortex-A53 up to 1.4GHz
GPU	Mali-T864 GPU
RAM	4GB DDR3
Storage	32GB EMMC
Operating System	VibeOS Based on Android 7.1

## Power

Power Source	AC 100 - 240V, 50 - 60 Hz
Consumption (Typical)	≤ 240 W
Consumption (Standby)	≤ 0.5W

## Speaker

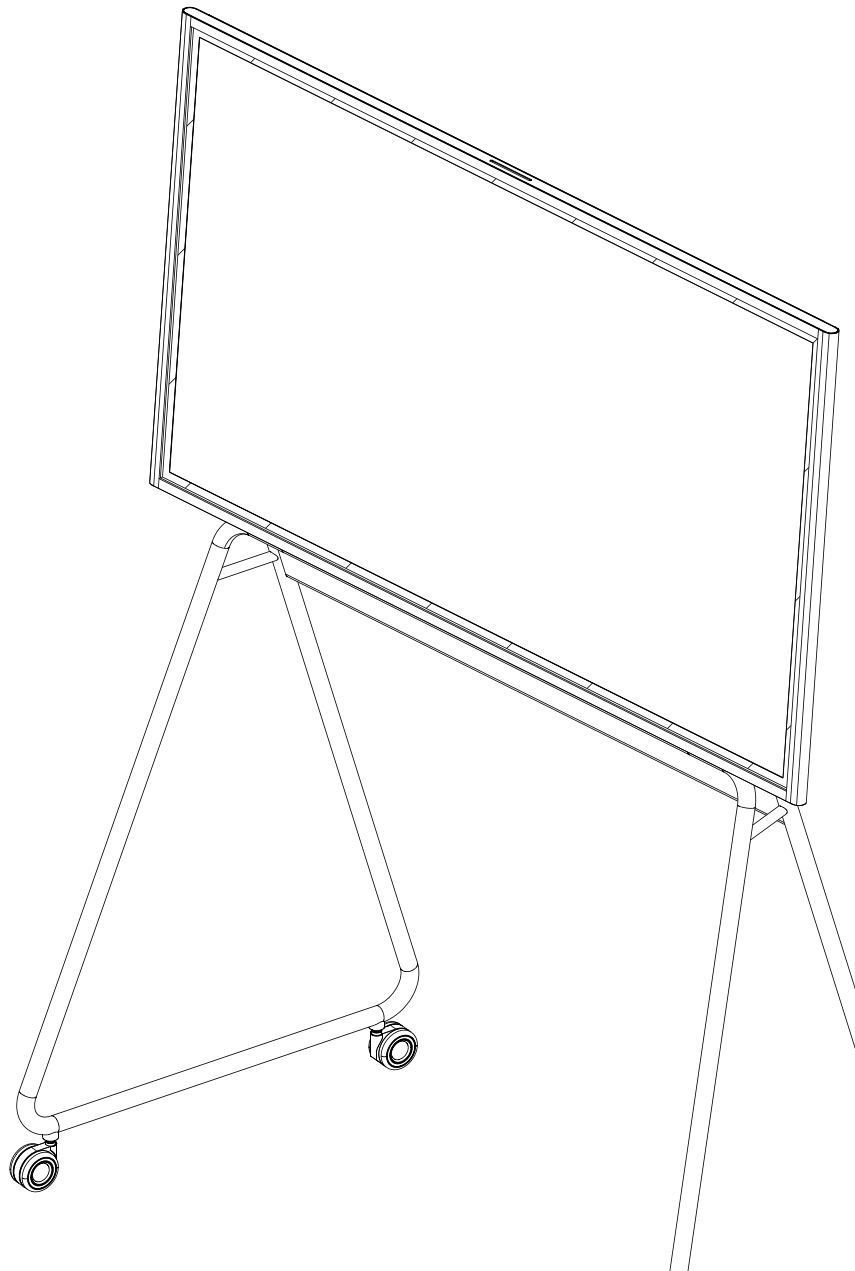

Impedance	6Ω±15% ( At 1000HZ, 1.0V with LMS)
Resonant Frequency	FB: 140Hz±20%
Sound Pressure Level	78±3dB
Effective Frequency Range	200~20KHz deviation-10dB Max
Distortion	7% Max
THD@Rated power	THD<7%

## Stand (Optional)

Product Size	50.4(W) x 50.9(H) x 26(D) in
Package Size	57(W) x 37(H) x 9(D) in
Product Weight	45 lb
Accessories	Installation Manual

## Board

Product Size	50.6(W) x 29.1(H) x 2.9(D) in
Package Size	56.7(W) x 37(H) x 8.8(D) in
Product Weight	60.6 lb
Accessories	Power Cord, Passive Stylus x 2, Manual, Warranty Card
VESA Mount	200 X 200 mm
